DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to a method of treatment by administering immunoglobulin polypeptide, classified in class 424, subclass 130.1.
 - II. Claims 10-19, drawn to an immunoglobulin polypeptide, classified in class 530, subclass 387.1.
 - III. Claims 20-22, drawn to nucleic acids, vector and host cell, classified in class 536, subclass 23.1.
 - 2. The inventions are distinct, each from the other because of the following reasons:
 - 3. Groups II and III are related as products the products are distinct each from the other as they are comprised of different structural and functional features such as nucleic acids, amino acids or heavy and light chains.
 - 4. Inventions II and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process of treatment can be practiced with anticholinesterase

Art Unit: 1647

compounds and the immunoglobulin can be used in the process of detecting Alzheimer's plaques in situ.

- 5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 6. Because these inventions are distinct for the reasons given above and the search required for each of the groups is not required for any other group, restriction for examination purposes as indicated is proper.
- 7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
 - 9. Any inquiry of a general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308-0196.

Papers relating to this application may be submitted to Technology Center 1600, Group 1640 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Should applicant wish to FAX a response, the current FAX number for Group 1600 is (703) 308-4242.
